Hidden relationships!

We tend to forget that as teens we should **NOT** be serious about relationships. But, relationships amongst teens **ARE** serious. Emotionally serious, physically serious, and all things love serious.

Teen news team went to the field and asked some teenagers about 'mdyolo'. Some said that teen love is just about the vibes not love, not true love at least! 'True love' is very hectic though, some say.

On our field trip, one teen told us a very interesting story about her love life.

She says the following, "I busted my boyfriend with another chick, the most undesirable chick in the school. I thought we were in love but how stupid was I? When I confronted him, he said he is not into the side chick. He said he will break up with her but she is as stubborn as a pig. If I might tell you the truth, I think he loved me but my insecurities pushed him away. I still believe in our relationship."

Seriously, teen love hurts teenagers and leave them depressed. Next thing you know, suicide! What do you think about teen love? Should it be about the vibes or serious?

SPORTS AND EDUCATIONAL PROGRAMS

ATHLETICS

On the 4th of February the school held their annual inter-House athletics day. Athletics is a fully inclusive sport which covers a collection of running and throwing events. Competition formats including traditional track and field events. Some of the winners proceeded and took part in the Makanda District Athletics event that was held on the 12th February. It was really a tough competition and the kids enjoyed every last bit it even though luck was not their side.

It is a good thing that they participated, next time they will surely do better than they did.

WORLD READ ALOUD DAY

On the 3rd of February the school, together with the Library Assistants from the Alicedale Makana Library held a world read aloud session for the Grade3 Pupils. The session was held at the school and one of the Library assistants read a story to the Kids about a Turnip. Children really enjoyed the story and also participated in the acting out of the story.

Looking forward to working them again.

RCL MANIFESTO & 2022 RCL MEMBERS

The Representative Council of Learners (RCL) is a mandatory body, according to departmental requirements, and consists of ten learners. These learners have to be nominated formally for the position and deliver a manifesto speech to their grades, before being voted into their positions. The RCL forms a vital link between the staff and the learners ensures effective all-round communication as all members act as direct spokespeople for their grade pupils. Our Manifesto took place on the 2nd of February and the voting took place on the 3rd the following day.

2022 Representative Council of Learners:

Grade 12 – Nolubabalo Makasi, Denzelin Maans, Aphiwe Mahe.

Grade 11 – Simamkele Nkombisa, Lisakhanya Mntengwana

Grade 10 – Buhle Nkole, Lulibo Dywili

Grade 9 – Lisakhanya Ntlanjeni

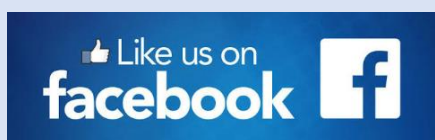

Grade 8 – Anele Mboyi

THANKS GIVING SERVICE

The thanks giving service has always been one of our many traditions that we have at the school and is held at the beginning of the year. This service is a way of saying thank you to our Lord, Jesus Christ for always being with us through the year until we start and finish the exams without any challenges of obstacles.

We believe that with him by our side and the dedication that the learners show throughout the year we are able to produce good Grade 12 results each year. That is why it is always essential for us to have services like this one.

SHOWS & ENTERTAINMENT

MS & MR VALENTINE

On February 17th the school hosted Ms & Mrs Valentine's Show in Town hall, the While Valentine's Day origins suggest celebrating to remember St Valentine's show is hosted every year on valentine's day or on valentine's week. The show is inspired by Valentine's Day is a time to celebrate romance and love and kissy-face reality. But the origin of this festival of candy and cupids is actually dark.

That is why we focus on the good side of it and celebrate the good things about it. The show was a success and everything about it was exquisitely exciting.

MS FRESHER AND MR FRESHER

We last held a show for new comers in 2018, and I think we all agree if we say, this was well needed after a tough two years of battling COVID and not being able to do any event at the school except for education programs. The Ms Fresher and Mr fresher show was once again a success and this is all thanks to the organising team and the learner's eagerness to participate in these extra mural activities.

And thanks once again to all the participants, parents and the learners for the endless support.

Donations

BEYOND ADVENTURES

Thank you so much to the Beyond Adventures Group who donated over 100 food parcels to our learners. We were so excited that we began to distribute the food together with their pupils without any delay. Little did we know just how much this act of random kindness would mean to the learners.

When we say thank you to the Beyond Adventures Group, we say it from hearts of people who know generational cycles of poverty, who struggle daily but are so grateful to have this generous donation to help feed families and also feed our own souls with hope and motivation to keep going. Thank you once again.

BROUBART GROUP

Mr Mark Wood on behalf of Broubart Group has been generous enough to come to our rescue when we desperately needed help and donated quite a number of stationary and books. Thank you so very much to Mark Wood and Broubart for their willingness to always help the school whenever they can and always being our shoulder to cry on. Some say, every charitable act is a stepping stone toward heaven.

Thank you a thousand times.

BEYOND ADVENTURES

Beyond Adventures continues supporting the school as they donated quite a number of bags filled with new stationary and reading materials to our Grade 1 learners.

Thank you so much for your continued generous support to our school.
