The staff of Hendrik Kanise had a developmental workshop on the 20<sup>th</sup> of June that was organized by the school management team. The workshop was done to help teachers become better at planning their time and staying organized. What a fruitful and enjoyable workshop.

## TERM MEMORIES

## **SPORTS AND DONATIONS**

### ***A SPORTING CHANGE FOR THE LEARNERS***

Schools should be teeming with activities, and the COVID-19 outbreak has affected all and sundry in the sporting world. The recent easing of hard lockdown restrictions in the country have reinvigorated the need and purpose to engage our kids in sporting games. Hendrik Kanise Combined School grabbed the much-needed reprieve to fully participate in extra curriculum activities.

A hastily arranged football and netball outing was set up with Ukhanyo Secondary School in Alexandria. Thanks to Sifundakunye Foundation for being the enablers, donating R1400.00 to the school to buy 4 soccer balls, the trip was resoundingly successful. The school will forever be indebted to SK Foundation.

---

### ***SEE BALL DONATION***

The school received a donation of soccer balls from the Shamwari Conservation Experience. The school has been working very closely with Shamwari and they always make sure that they always come through for the school in times of need. A big thank you for their great generosity! We greatly appreciate their invaluable support.

---

### ***PARLIAMENTARY CONSTITUENT OFFICE VISIT***

Parliamentary Constituency Office visited the school as part of their outreach programmes. Our school was identified because of our consistently good matric results. The group came to donate dignity packs for FET learners and netball kit for our junior learners.

Thank you so much, isandla esiphayo sisandla esisikelelekileyo

---

### ***GEORGE JACQUES FRIENDLY MATCH***

On the 18<sup>th</sup> of May we had a successful and fun friendly match with our neighbouring school Jacques Primary. The matches encompassed our netball under 11, 13 and 15 teams, under 11, 13 and 15 soccer teams and 11, 13, and 15 rugby teams. We are looking forward to next term.

Am pretty sure the learners really enjoyed themselves and they learned one thing or two.

---

### ***SOCCER BOOTS SPONSORSHIP***

At the beginning of June we received a number of soccer boots from the Shamwari group after they arranged a fun and enjoyable soccer match with some of our small boys. After the match the soccer boots were distributed to the boys that have participated and to see the smiles on their faces meant the boots were not only appreciated but it meant so much to them.

Shamwari is truly a star in our sky.

**THE CLASS OF 2017**

**GRADUATION DAY**

I am Athenkosi Bangela and i was born and bred in Alicedale. I did both my primary and high school at Hendrik Kanise Combined School and matriculated in 2017. After matric, I wasn't happy with my results, so I upgraded them at Gadra and got accepted to study at Rhodes University. I studied BSc and majored in Geography and Geology. I plan to study more and get a decent job for my future. That way I can start my own property business and give back to the community.

Motivation to the learners would be to always listen to their teachers and take education seriously. Because at some point in life I never thought I would be where I'm at right now because of some learning barriers. I overcame those learning barriers by attending a BIBO club that was formed by Miss Williams back then. The whole purpose of the club was to help learners who struggled with reading and writing.

So with that being said, every assistance you get from the teachers should be grabbed with both hands and be seen as an opportunity to better their understanding.

I am Sive Ncwadi and I was born and bred in Alicedale where I did all my schooling and finished my Matric in 2017 at Hendrik Kanise My high school life was fun, especially in Grade 12. I went on to study at Nelson Mandela University and obtained a Bachelor of Arts (Degree) majoring in Psychology and English. Currently, I'm further enhancing my studies doing PGCE. My plans for the future it is to reach my goals and I believe education is the only key that will open doors for me!!!

To motivate learners: As a learner for me, I think you need to be willing to invest effort in learning and you can agree with me you learn by doing and by falling over. Trust me when I say that, great things never come from comfort zones!!

Through God you can make it 🙏

Zinzi Bikani (24 years old) Born in Cape Town and my parents moved to Worcester when I was 1 or 2 years I think. I grew up in Worcester with my whole family there and with my mother's family. I did my primary school there and then I moved to Alicedale for my high school and I matriculated in 2017.

After high school, I applied for interior Design since I love designing and decorating, but my application was not accepted. Since Mrs. Louw-Arnold made me love tourism, I decided to apply for Tourism management and Events management but my main focus was Tourism. And I was accepted for tourism Management. I started a National Diploma in 2018 for a 4-year Program at Cape Peninsula University of Technology.

In 2019 while I was studying I was also working for City Sightseeing Bus head office in call center marketing. 2020 came covid and I was only studying. Lol, I love making money by working and finding a job because that's the only way to make money in this world we live in.

Last year in July I did my internship for 6 months, I was working for V & A Waterfront Head Office as a marketing intern. It wasn't that tough working in the marketing department as I studied tourism, and did marketing as a subject in my course. Then in January, they extended my contract as a Marketing co-ordinator of V&A Waterfront head Office. This year I'm currently studying for my Advanced Diploma in Tourism Management (BTech). So I'm working full time and studying full time also. My plans for the future I'm planning to study again next year for an Advanced Diploma in Risk Management (Btech). My dream job is to work as an executive manager of risk management or maybe CEO.

My advice for young ones is to trust the process and challenge yourself in everything they do to motivate themselves. One day you will get to this point. Have fun but limit yourself and don't be pressured by friends and competition, do your own thing and be the better person that you represent to others.

I am Simbulele Nelani, I grew up in Alicedale. I did my primary and high school at Hendrick Kanise Combined School. In 2017 I matriculated with a Bachelor's Pass with 2 distinctions in Tourism and Life Orientation.

In 2018 I was accepted to study at Rhodes University, pursuing a Bachelor of Arts degree majoring in Journalism, Media Studies, and Organisational Psychology. I finished my degree in 2021 and was conferred on the 7th of April.

The plans I have for the future are to work in a company where I can continue to grow and learn, and be able to utilize my media practitioner skills. I also plan to have my own production company so I can create more job opportunities for others.
